CMPS 5433 – Parallel Processing

Make-up for Absence

For each absence in this course, the absent student will be assigned a paper/article. The student will read the article and write a 2000 word report. (1500 words summarizing the material and 500 words given the students ideas, opinions, or relationship to the course, etc.) An acceptable paper will be written in correct grammar and punctuation, in the student’s own words, quoting with citations when direct quotes are copied.

The report must be emailed to Dr. Halverson as a word attachment by midnight one week from the date of the absence. If not, the student will receive a 10 point deduction off the daily average at the end of the semester. A student will only be allowed 3 absences. After that time, the deduction will be automatic.

It is the responsibility of the student to meet with Dr. Halverson ASAP following an absence to get the paper. The policy applies for all absences, even if the student feels it should be “excused.”
