Due: Thursday, February 4, 2010 - beginning of class

Tuesday, February 2

*Computing on the GPU GE Force 88000 and NVidea CUDA*
Presented by Ian Buck, November 29, 2006
Stanford University

This video will be shown in class on Tuesday, February 2. You are required to take notes on the presentation. It is likely that the video will not quite be completed in the allotted class time. So, you are required to watch the rest of the video on your own time.

On Thursday, turn in your typed up notes on the video. I expect at least one page of notes, single spaced with 1” margins and 12 point font. The material in the video may be covered on an exam or in other class work.

The link to the video is: [http://www.youtube.com/watch?v=hfULQicXdlQ](http://www.youtube.com/watch?v=hfULQicXdlQ)

You are required to attend class to view the video on February 2.
